

144-Hexagon Plug Tray

PROMOTE HEALTHY ROOTS & HIGHER YIELDS

The 144-Hexagon Plug Tray encourages healthy root systems and higher yields. Top surface ventilation promotes upward air flow, reducing moisture and spread of disease. Precisely centered, punched drain holes and bottom feet support superior drainage. Denesting automation compatibility achieves production efficiencies.

Top Surface Ventilation Provides Upward Air Flow, Reducing Moisture and Spread of Disease

Precise Die Cut Drain Holes and Bottom Feet Provide Even Drainage

Automation Compatibility with Perimeter Trim Reliefs

Compatible with Many Media Types:
Elle Plugs, Paper Plugs, Synthetic Plugs, Soil Plugs, Glue Plugs, Peat, Coir, Pellets, and More

720594C
