

BRANDANCHOR SYSTEM PRODUCT LABELING

CONSISTENT LABELS. SMARTER OPERATIONS. STRONGER BRANDS.

Pre-applied labeling solutions that improve presentation, reduce labor, and support brand visibility throughout the growing and distribution process. Consistent label placement helps streamline operations while supporting:

UPC Programs • Barcode Scanning • Inventory Management • Product Identification • Retail Readiness

Consistent Placement

Labels applied in the same location every time for a professional, uniform appearance.

Reduced Labor

Pre-applied labels eliminate manual application at the greenhouse.

Retail & UPC Ready

Supports point-of-sale barcode scanning, inventory management, and product identification.

Brand Visibility

Maintain consistent branding throughout production, shipping, and retail.
