HORTICULTURE

HORTICULTURAL CONTAINERS

Superior Plastic Pots & Trays for Your Growing Success

Time Tested & Proven for Your Plant Health and Process Efficiency

★ ALL PRODUCTS ★ MADE IN THE USA

USMCA COMPLIANT

Our central location just north of the Twin Cities positions us perfectly for quick and cost-effective distribution to the entire United States, Canada, and Mexico.

OUR TEAM

SALES

- 100+ Years of Horticulture Experience on Team
- Supportive & Attentive
- Customer Driven & Innovative

CUSTOMER SERVICE

- Quick Response Time
- Issue Resolution
- Order Acknowledgments & Proactive Updates

FOCUSED ON YOU

With G.R.I.T. (Great People, Results, Integrity, & Tenacity), we work daily to exceed your expectations on product options, quality, on-time delivery, and service. We believe our ability to succeed helps you do, be, and grow better. It is our honor to support your growth.

COMMITMENT TO ENVIRONMENTAL RESPONSIBILITY:

Tens of millions of pounds extruded per year of reclaimed materials.

Products start with 95% or more recycled material.

Minimal Waste Manufacturing Process

Most Products are Recyclable

We're proud to produce products for the beautification of

• Food crop production

• Reforestation Projects

• Floriculture Research

Manufacturing Philosophy

As your plastics partner, we provide innovative thermoformed products, services, and ideas in a timely, cost-effective, dependable way. We believe the beauty of thermoforming lies in its adaptability, capability, and speed, while meeting or exceeding product performance standards.

Committed to Quality

We are ISO 9001:2015 certified; with stringent quality control practices in place, we strive for perfection and doing the job right the first time.

TYPES OF PLASTIC

Acrylonitrile Butadiene Styrene (ABS)

Lightweight with good impact strength, while remaining durable and affordable.

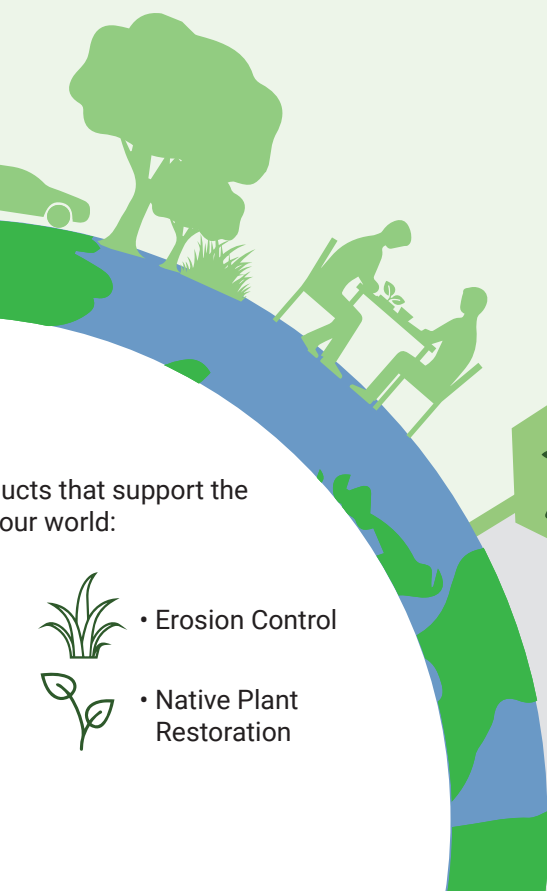

Polypropylene (PP)

Durable and chemical resistant. Used in most plant containers.

Polystyrene (PS) or High Impact Polystyrene (HIPS)

Lightweight, used often in flats and liners.

Products that support the world:

- Erosion Control
- Native Plant Restoration

Grower Education

Sharing knowledge is the best way to grow an industry; we want to teach you and learn from you as your partner in horticulture.

Customer Centered Design

We continually enhance our design and development process to better serve you.

New Product Development

Industry led innovation to enhance your plant and business growth.

GROWING WITH YOU & FOR YOU

New & Featured Products

We're committed to your growth & innovation. We do this by bringing you new and improved products; designed with growers, for growers.

Scan the code with your phone camera, or visit www.toplastics.com/growwithto, to see new and featured products on our website.

THE ENVIRONMENTALLY RESPONSIBLE ROUND POT

The **Environmentally Responsible Round Pot** by T.O. Plastics is made from 95% recycled material and is available in pint, quart, and trade gallon sizes. The pint and gallon round pots are compatible with existing carry trays and two new carry trays are available in 8 and 12-count for the quart round pot.

Made from 95% Recycled Material

Die Cut Holes for Thorough Drainage

Reinforced Top Rim for Smooth Destacking

Bottom Feet to Provide Increased Airflow

Additional Colors Available
Black & White: Stock
Other Colors: Non-stock (4 pallet min.)

SQUARE POT TAG SLOTS

Convenient and Durable Branding Opportunities

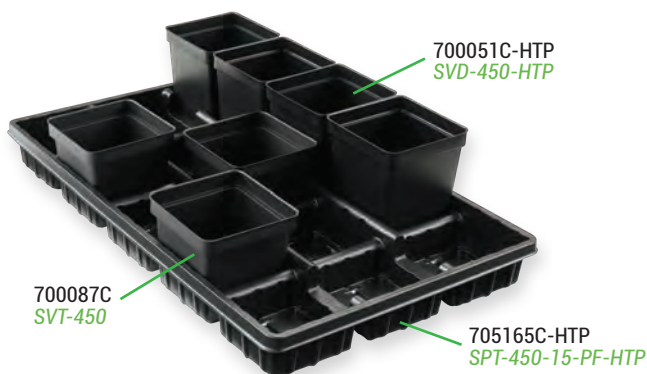

Tag slots are located on each side of the square pot to provide ample and flexible branding opportunities. Hanging and stake tags of all sizes easily slide into the tag slots on the superior engineered guide ramp. Or, if you use adhesive labels, the smooth side of pot is a perfect surface for quality adhesion. Accompanying carry trays are low profile to allow for maximum visibility of your brand.

SQUARE POT PRESS-FILL SYSTEM

Realize Significant Labor Savings

Rather than load your trays with pots one at a time, the press fill system pairs compatible pots and trays so you can load an entire tray with pots in one fluid motion. Simply place a tray on top of stacks of pots, press firmly, and lift to get a fully loaded tray of pots. Labor savings of up to 75% are possible if you switch to this system.

ENVIRONMENTALLY RESPONSIBLE COLORS

Achieve Eco-Friendly Success with Bold Colors

Balancing sustainability with expressing your unique brand identity is now possible. T.O. Plastics is able to offer vibrant colors made from 95% recycled materials, creating a stunning palette that not only embodies your brand's identity but also speaks volumes about your commitment to the environment. Colors include red, terra cotta, yellow, lime green, green, blue, purple, pink, gray and white. Custom extruded colors available upon request. Contact your sales rep to discuss further.

EMBOSSSED BRANDING

Customize to Increase Brand Visibility

Custom embossing is a durable option for branding square pots with company name, logo or design. When paired with low-profile trays, it provides maximum visibility of your brand. Additionally, other products suitable for embossing include flats, plug trays, and humidity domes. Connect with your sales rep to learn more about this option.

LABELING / BARCODING

Set your brand apart and help retailers get your product on shelves faster with custom labeling and barcoding. Whatever your needs, we can accommodate your label size, color, and text. Pressure sensitive labels can be applied to square pots, inserts, flats and many other products. Standard labels are water resistant and recyclable. If needed, we have design services available to help you customize and brand your labels.

Seasonal lead times will vary. Please contact your sales rep for additional information.

SUREROOTS® PLUG TRAYS

This custom designed line of plug trays and the results they achieve are only available through T.O. Plastics and our approved distributors. Their cylinder shaped cells and top-to-bottom V-shaped ribs prevent root wrapping. Compatible with your preferred plugs and ready for use in manual or full automation operations, these plug trays are equipped to support your transplant success.

Star Plug Trays

Star plug trays are known for their durability and unique design, which promotes enriched root growth compared to other standard trays.

Additional Benefits:

- External root channels break the pattern of circling roots
- Maximize product turns by reducing root out times
- Increased transplant success

Image features plant root development 10 weeks after seeding in square plug trays (left) compared to star plug trays (right).

SUB-IRRIGATION SYSTEM

PLUG TRAY-TO-FLAT COMPATIBILITY GUIDE

Determine which standard flat or germination tray is compatible with your preferred plug tray for sub-irrigation watering. Add 2-inch or NEW 7-inch humidity dome for all-in-one growing system!

PROPAGATION SHEETS

These trays marry effective plastic manufacturing with a delicate growing process, proving that opposites do attract as they work together to create ideal environments for propagating blueberries, tomatoes, peppers, strawberries, and more. Optimized cell sizes allow for abundant soil capacity, community watering channels prevent dry cells, and trays denest easily to maximize your time and effort.

SHEET POTS & LINERS

Ideal for nursery propagation and landscape ground covers, these multi-purpose sheet pots and liner trays are economical in terms of price and planting effort. Sheet pots feature perforations for separation into individual pots for retail sales or ease of planting; liner trays help retain the solid sheet composition. Both are available in standard, deep, and true formats.

TALL HUMIDITY DOME

7-Inch Growing System

The humidity dome features 1,148 cubic inches of growing space, four adjustable humidity control settings, and two branding locations. Built with our 1020 standard flats in mind, it is compatible with a wide range of T.O.P. trays.

- **Humidity Control:** Vents with four (4) adjustable humidity control settings.
- **Dome Handle:** Inset handle for easy tray access.
- **Dome Perimeter:** Wide perimeter lip for greater tray compatibility.
- **Branding:** Two (2) brandable side walls to showcase your company.

BENEFITS OF WORKING WITH T.O. PLASTICS

Dependable, High Quality Standards

We are committed to consistently providing products that meet our rigorous high quality standards, ensuring reliability and satisfaction.

Exceptional Customer Service

Our knowledgeable sales and customer service teams are focused on customer satisfaction, ensuring that your needs are always met.

Extensive Inventory Availability

We maintain a large inventory of products, allowing us to quickly fulfill orders and support the smooth operation of your business.

Quick Shipping Turnaround

T.O. Plastics aims to provide timely shipping, ensuring products are delivered quickly to reduce downtime and maintain efficiency.
